EDUCATION

University of Rochester

Rochester, NY

Bachelor of Science in Computer Science; Expected May 2029

Aug. 2025 – May 2029

- Relevant Coursework: Data Structures and Algorithms, Discrete Mathematics, Linear Algebra and Differential Equations
- Planned Clusters: Social Psychology, Ethics of Technology
- Current GPA: 3.6

EXPERIENCE

IT Intern

June 2024 – Aug. 2024

Workers United

Rochester, NY

- Collaborated directly with the Lead IT Specialist to support day-to-day operations across the organization
- Assisted with maintenance and troubleshooting of office hardware including desktops, laptops, printers, and networking equipment
- Provided software support for staff, including installation, configuration, and issue resolution

Academic Intervention Specialist

June 2022 – August 2025

Vertus High School

Rochester, NY

- Provided one-on-one and small-group support in math and science to 25+ high school students per summer session to address learning gaps, resulting in an average grade improvement of 15%
- Collaborated with 10+ teachers to reinforce classroom instruction and develop individualized learning strategies for at-risk students, improving student engagement by 40%
- Monitored student progress through weekly assessments and adapted support methods to address knowledge gaps, leading to 80% of students achieving grade-level proficiency
- Achieved strong instructional outcomes with 87% of surveyed educators reporting significant academic improvement in students supported

PROJECTS

Exbo | *TypeScript, React, React Router, PostgreSQL, CSS*

Mar. 2026

- Developed a full-stack forum and social media web application enabling users to create accounts, post threads, and engage in community discussions, deployed on Vercel
- Architected a relational database schema using PostgreSQL with custom PL/pgSQL functions to handle user authentication, thread storage, and dynamic content retrieval
- Built a responsive multi-page frontend with React and React Router, implementing client-side routing for seamless navigation across posts, profiles, and community feeds
- Structured the codebase with modular TypeScript components and clearly separated concerns across data, UI, and routing layers to improve maintainability and scalability

Sentence Tone/Emotion Classifier | *Python, scikit-learn, TF-IDF, Logistic Regression*

Dec. 2025

- Developed a machine learning model to classify text into 9 emotion categories using TF-IDF feature extraction and Logistic Regression, achieving 85% classification accuracy on test data
- Implemented text preprocessing pipeline with lowercasing, punctuation removal, and n-gram tokenization to extract 1,000+ features, improving model performance by 20%
- Created interactive CLI tool with visual confidence score display for real-time emotion prediction, enabling user feedback and analysis of 100+ text samples

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, HTML/CSS, JavaScript

Frameworks: React, React Router

Databases: PostgreSQL

Developer Tools: Git, GitHub, VS Code, Vercel
